

SAFETY RECALL

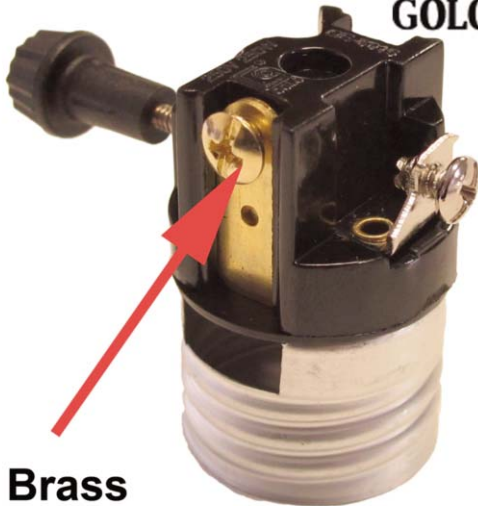

Golo Brand 3-Way Lamp Socket Interior Medium Base (E26)- Golo Product Number GE-8015

This Notice is to inform you of a voluntary recall of all 3-Way turn-knob medium base E26 lamp socket interiors manufactured by Golo Electric Lighting Co. with **Part No. GE-8015**, short mandrel, 250W, 250V.

All socket interiors involved in this recall were sold after May 9, 2017.

Please see attached photos (left) showing images of this lamp socket interior.

Brass Terminal

POTENTIAL RISK

If Golo Part No. GE-8015 (3-way turn knob medium base E26 interior socket) is wired to a lamp cord, the brass screw terminal (**photo at left**) may strip out and not hold the lamp cord securely to the lamp socket causing a disconnect from socket to lamp wire. Therefore, it is possible the integrity of the socket and performance of the product could be affected. (This defect may be obvious during wiring installation.)

Potential Risks Include:

- Compromise of the socket/cord connection and function of the lamp resulting in a possible electrical short circuit
- Potential damage to the socket, lamp, or surge protector
- Potential to cause fire or injury

IF YOU HAVE PURCHASED GOLO PART NO. GE-8015:

- Do not use this product.
- If you have installed this socket interior on a lamp or fixture, disconnect from electrical source and do not reconnect.
- Return product to this store for a full refund and/or replacement OR call **1-800-822-3450** for instructions on the return and replacement of Golo GE-8015 3-Way lamp socket interior.

POST UNTIL MAY 1, 2018
